

## LAW, REGULATION AND ENFORCEMENT: THE EXPERIENCE OF THE WEST

1. Private law – access to law – alternative dispute resolution (ADR) – “market remedies” - judicial remedies – litigation culture
2. “Command and control” models of regulation and enforcement – institutional structures – role of government – rule-formulation – monitoring processes - use of criminal justice – sanctions – optimal enforcement policy
3. Alternative models of regulation and enforcement: - financial incentives – co-regulation – decentralisation – primary, secondary and tertiary rules – regulatory discretion
4. Regulatory processes: bureaucratic accountability – transparency - regulatory capture – corruption
5. Key issues for China – role of the state - decentralisation – bureaucratic competition – public/private divide
